

*****ATTENTION: North Pecos Road/CC-215 Overpass Bridge Closure*****

VASNHS staff and Veterans will begin seeing major traffic changes around the VA Medical Center over the next year as the next phase of improvements begins on the Clark County 215 Beltway between North 5th Street and Lamb Boulevard. The first impact begins July 23, 2018 as the current overpass bridge in front of the VA Medical Center at 215 and North Pecos Road closes for approximately four months for demolition and construction of a new bridge. Individuals traveling to VA Medical Center eastbound on the 215 from the Northwest will be able to exit at Pecos Road, but will need to use S. Lamb Blvd. or Losee Rd. to travel westbound on the 215 from the facility. Individuals traveling to the facility westbound on the 215 from I-15 will not be able to exit at Pecos. They will need to exit at S. Lamb Blvd. or Losee Road. North Pecos Road will be open to eastbound traffic toward I-15 on the 215 from the facility during this phase of construction. Those traveling to the VA Medical Center on I-15 North from Las Vegas are advised to exit at Lamb Blvd. and take E. Centennial Pkwy to Pecos Road.
