

## The Silverado Mainline

Local Nevada residents facing long distance transportation issues can rejoice at the return of a new bus service serving the Silver State, The Silverado Mainline. Through a public-private partnership between the Nevada DOT and Silverado Stages, we connect 10 cities, unincorporated areas, military installations, and Native American and rural communities with comfortable, reliable and safe means of transportation.

Traveling outside of the state of Nevada? No problem, Silverado Stages has you covered there too. We have partnered with Greyhound Connect to provide you service anywhere in the United States you need to go.

Have a large group booking? (15 people or more), get in touch with our sales team and we may be able to offer you a discount on your trip.

[I have more than 15 passengers.](#)
